

Project Design Phase
Proposed Solution Template

Date	18 June 2026
Team ID	
Project Name	BOOK A DOCTOR
Maximum Marks	2 Marks

Proposed Solution Template:

Project team shall fill the following information in the proposed solution template.

S.No.	Parameter	Description
1.	Problem Statement (Problem to be solved)	Patients often face difficulties in finding suitable doctors, checking availability, and booking appointments efficiently. The traditional appointment process is time-consuming and lacks convenience.
2.	Idea / Solution description	BOOK A DOCTOR is a MERN Stack-based online doctor appointment booking platform that allows patients to register, search doctors by specialization, view profiles, book appointments, manage bookings, and update their profiles. Administrators can manage doctors, patients, and appointments through a dedicated dashboard.
3.	Novelty / Uniqueness	The platform provides a centralized healthcare booking system with advanced doctor search, appointment scheduling, secure authentication, appointment history, and admin management in a single user-friendly application.
4.	Social Impact / Customer Satisfaction	It reduces waiting time, improves access to healthcare services, enables patients to book appointments from anywhere, and enhances overall patient convenience and satisfaction.
5.	Business Model (Revenue Model)	Revenue can be generated through premium doctor listings, hospital partnerships, consultation service fees, featured advertisements, subscription plans, and appointment booking charges.
6.	Scalability of the Solution	The system can be extended by integrating online video consultations, digital prescriptions, payment gateways, AI-based doctor recommendations, mobile applications, and

		cloud-based deployment for large-scale healthcare services.
