Maximum Marks	

Project Overview:

Project Name: BOOK A DOCTOR

Project Description:

BOOK A DOCTOR is a MERN Stack–based healthcare appointment booking platform that enables patients to search for doctors, view their profiles, schedule appointments, upload medical documents, and manage their healthcare interactions online. The platform also provides dedicated dashboards for doctors and administrators to efficiently manage appointments, patient records, and system operations.

Project Version: 1.0

Testing Period: 15 June 2026 to 18 June 2026

Testing Scope:

Features Tested

- User Registration
 - User Login
 - Doctor Browsing
 - Doctor Search
 - View Doctor Profile
 - Appointment Booking
 - Appointment Cancellation
 - View Appointments
 - Upload Medical Reports
 - User Profile Management
 - Doctor Dashboard
 - Admin Dashboard
 - Doctor Approval & Management
- User can register and login.

User Stories Tested

- User can register and log in successfully.
- User can browse and search doctors.
- User can view doctor profiles and availability.

- User can book and cancel appointments.
- User can upload medical reports securely.
- Doctor can manage appointments and availability.
- Admin can approve doctors and manage platform operations.

Testing Environment:

URL/Location: http://localhost:5173

Test Case ID	Test Scenario	Test Steps	Expected Result	Actual Result	Pass/Fail
TC-001	User Registration	Enter valid details and click Register	User account should be created successfully	Account created successfully	Pass
TC-002	User Login	Enter valid email and password	User should log in successfully	Login successful	Pass
TC-003	Invalid Login	Enter incorrect password	Error message should be displayed	Error displayed correctly	Pass
TC-004	Browse Doctors	Open the Doctors page	List of doctors should be displayed	Doctors displayed correctly	Pass
TC-005	Search Doctor	Search by doctor name or specialization	Matching doctors should be displayed	Search working correctly	Pass
TC-006	View Doctor Profile	Click on a doctor's profile	Doctor details should be displayed	Details displayed correctly	Pass
TC-007	Book Appointment	Select doctor, date, and time slot, then confirm	Appointment should be booked successfully	Appointment booked successfully	Pass
TC-008	View Appointments	Open My Appointments page	User's appointments should be displayed	Displayed correctly	Pass
TC-009	Cancel Appointment	Cancel an existing appointment	Appointment should be cancelled	Cancelled successfully	Pass
TC-010	Upload Medical Report	Upload a valid medical document	File should upload successfully	Uploaded successfully	Pass
TC-011	View User Profile	Open Profile page	User information should be displayed	Displayed correctly	Pass

Test Case ID	Test Scenario	Test Steps	Expected Result	Actual Result	Pass/Fail
TC-012	Doctor Login	Doctor enters valid credentials	Doctor should log in successfully	Login successful	Pass
TC-013	Manage Doctor Availability	Doctor updates available time slots	Availability should be updated	Updated successfully	Pass
TC-014	Admin Approve Doctor	Admin approves a pending doctor account	Doctor status should change to approved	Approved successfully	Pass
TC-015	Admin Manage Users	Admin views and manages registered users	User list should load correctly	Displayed correctly	Pass
TC-016	Appointment Notification	Book an appointment	Confirmation notification/email should be generated	Notification sent successfully	Pass

Bug Tracking:

Bug ID	Bug Description	Steps to Reproduce	Severity	Status	Additional Feedback
BG-001	Appointment page loading slowly	Open Appointments page	Medium	Closed	Optimized API calls
BG-002	Doctor profile image not loading	Open Doctor Profile page	Medium	Closed	Fixed image path
BG-003	Appointment booking returned 400 error	Book an appointment	High	Closed	Fixed backend validation
BG-004	JWT token expired unexpectedly	Stay logged in for a long session	Medium	Closed	Improved token handling
BG-005	Medical report upload failed for large files	Upload a large PDF report	High	Closed	Increased upload size limit and added validation
