

Project Design Phase-II
Solution Requirements (Functional & Non-functional)

Date	18 June 2026
Team ID	
Project Name	BOOK A DOCTOR
Maximum Marks	4 Marks

Functional Requirements:

FR No.	Functional Requirement (Epic)	Sub Requirement (Story / Sub-Task)
FR-1	Patient Registration	Registration through Form Registration using Email
FR-2	User Authentication	Login using Email and Password Logout from Application
FR-3	Doctor Management	View Doctors Search Doctors Filter Doctors by Specialization View Doctor Details
FR-4	Appointment Management	Book Appointment Reschedule Appointment Cancel Appointment
FR-5	Appointment History	View Appointment History Track Appointment Status
FR-6	User Profile	View Profile Information Update Profile Details
FR-7	Admin Authentication	Admin Login
FR-8	Doctor Administration	Add Doctor Update Doctor Delete Doctor Manage Doctor Records
FR-9	Appointment Administration	View Patient Appointments Update Appointment Status
FR-10	Patient Administration	View Registered Patients Manage Patient Accounts

Non-Functional Requirements:

NFR No.	Non-Functional Requirement	Description

NFR-1	Usability	The application should provide an intuitive and user-friendly interface for customers and administrators.
NFR-2	Security	User passwords must be encrypted, and authentication must be implemented using secure JWT-based authorization.
NFR-3	Reliability	The system should consistently process appointments and user requests without failures or data loss..
NFR-4	Performance	Doctor searches, appointment bookings, and API responses should be completed within acceptable response times.
NFR-5	Availability	The application should be accessible to users whenever required with minimal downtime.
NFR-6	Scalability	The system should support increasing numbers of patients, doctors, and appointments without significant performance degradation .
NFR-7	Maintainability	the application should be modular and easy to update or enhance with new features.
NFR-8	Compatibility	The system should work across modern web browsers and different devices, including desktops, tablets, and mobiles.
